INFORMATION

Technical:--I have production sound experience varying from 35MM and 16MM synch sound using digital recording (SD 788T) (Deva V) , Timecode DAT to 24P, High Definition SONY, Panasonic, Genesis and RED Camera direct to camera recording. I am familiar with several microphones including interior boom, exterior shotgun and lavalier microphones with makes such as Sanken, Schoeps, Neumann, Sennheiser, Oktava and Tram. I am well versed with lectrosonics radio microphones and have a great deal of experience in wiring talent with body transmitters and hiding their microphones. I own and am able to operate a playback system and resolve most sound issues. I have had extensive studio experience with music production and have been able to adapt my skills to work in the field. I have worked on productions throughout the Southeast including Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee.
